Steps to Apply for Drainage Connection

This document describes the application procedure and approval process of drainage connection applied by the citizen through EGIS portal.

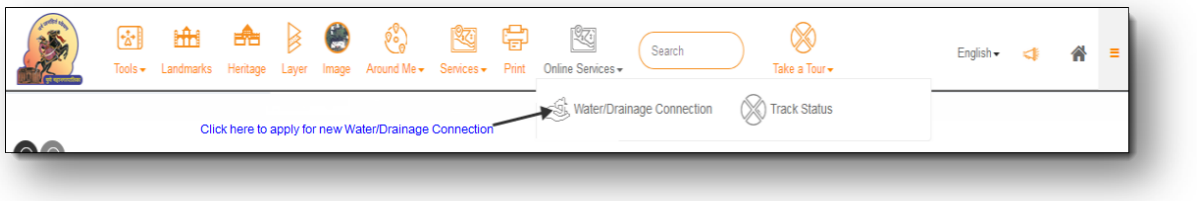

Steps to Apply for Drainage Connection:

Step 1: Download "Drainage Connection Form" our Portal (https://gis.pmc.gov.in).

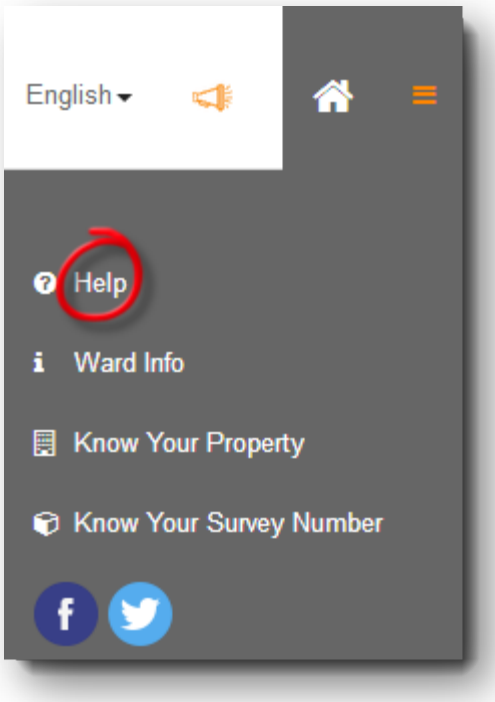

I. Browse the “https://gis.pmc.gov.in” on the browser and in the home page clicks on City Map.

II. Once the City Map Dashboard displays, clicks on Online Services from the Top Menu and click on Water/Drainage connection.

III. Only register user will be able to view and apply the water/drainage connection form. If you do not have a register id, please register yourself from the home page register link. To know, how to register? You can refer the help file (City Map >> Right navigation menu >> Help).

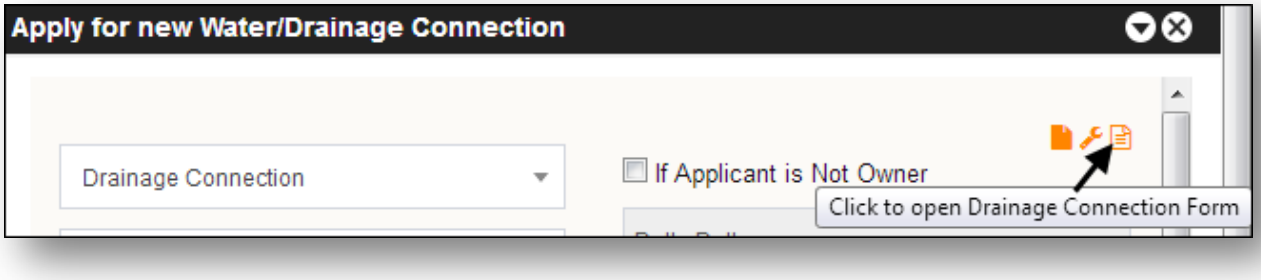

IV. Once register, you can repeat the Step II to go to the water/drainage connection form again.

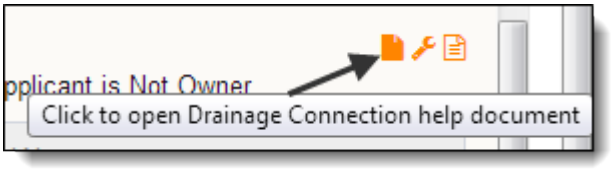

V. Once you get the application from, choose drainage connection from the drop-down list.

VI. Once drainage connection is selected, display will change as per selection.

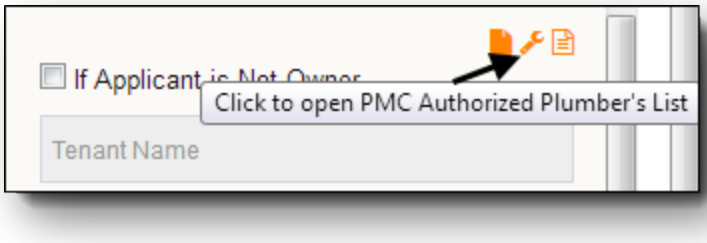

VII. Now download the drainage connection form.

VIII. Download Help document to know how to apply for Drainage Connection.

Step 2: Identify nearest plumber as per your location from the authorized PMC plumbers list under "Drainage Connection" form.

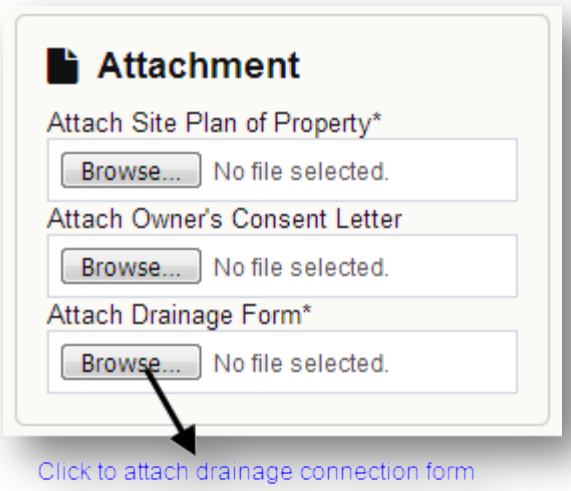

Step 3: Coordinates with the plumber and get the Drainage form filled up by your choice of plumber at your door step.

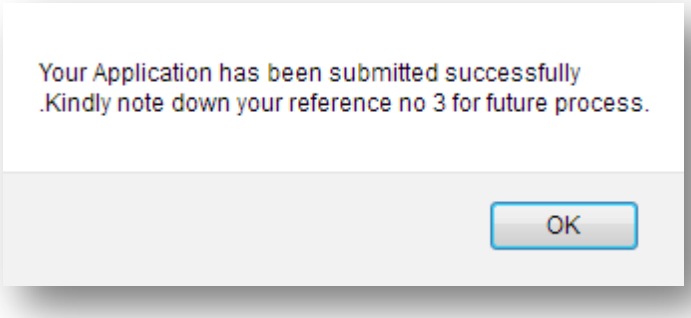

I. Plumber will visit your place and check the feasibility.

II. Plumber will also help you to get the drainage form filled.

Step 4: Attach filled in Drainage form and other mandatory documents on the portal. Also complete other mandatory details on the portal and submit the request in the system. (To know how to fill the application form on the portal and attach the documents, refer to City Map >> Right navigation menu >> Help Document – Application Form).

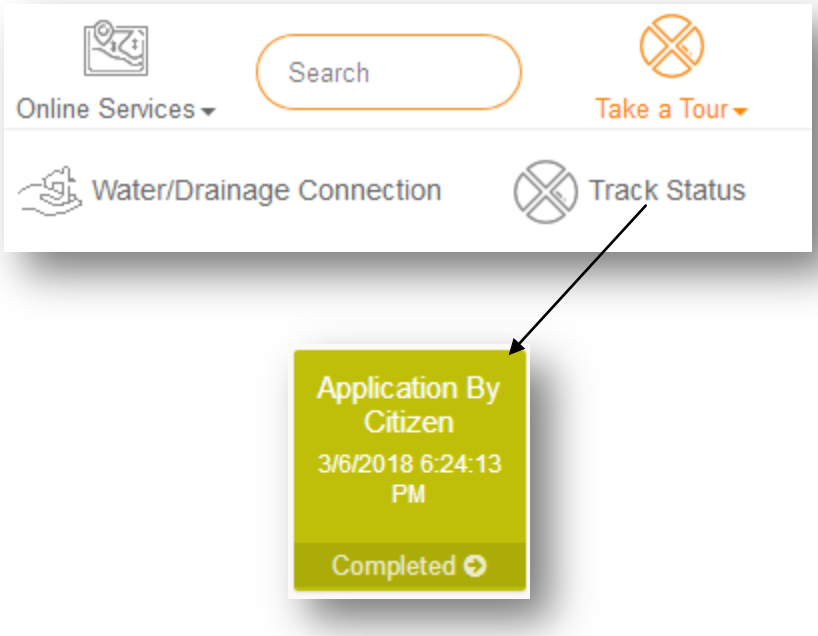

On Successful Submission, You will receive Message Like as shown below:

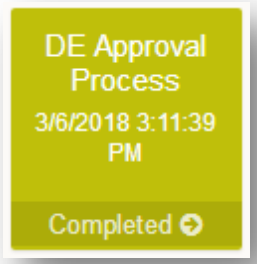

I. After application is successfully submitted, Junior Engineer (JE) conducts an internal assessment and puts the amount that you need to pay with remarks.

II. Status shows "Junior Engineer Approved" in the **track status** window.

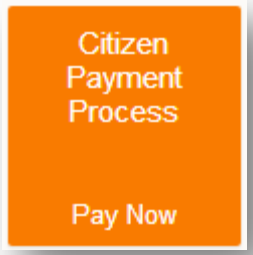

Step 5: Deputy Engineer (DE) will verify the details and remarks filled by the Junior Engineer and approve.

I. Status shows "Deputy Engineer Approved".

Step 6: Make Payment of the charges once Payment Link gets activated under "Track Status" on the portal.

I. You can track the status of your application using "Track Status" utility, status shows "Pay Now".

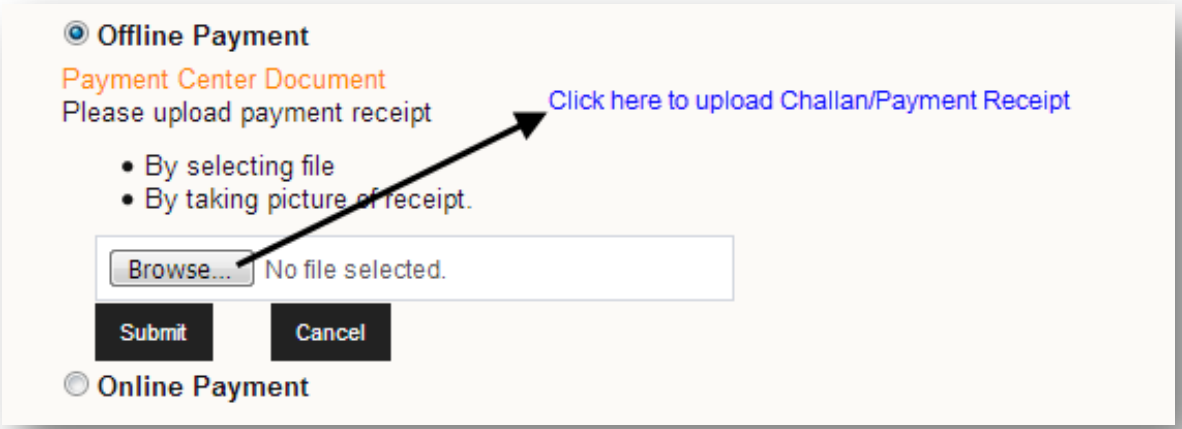

II. Also, payment amount & pay now link gets visible under "Track Status" utility with Online & Offline two categories.

III. For Offline Payment:

A. You need to make the payment at your nearest CFC/Payment centres and get the receipt/challan to proceed with the request.

i. Please click on Payment Center Document link in the offline payment method and find your nearest Payment Center for offline payment.

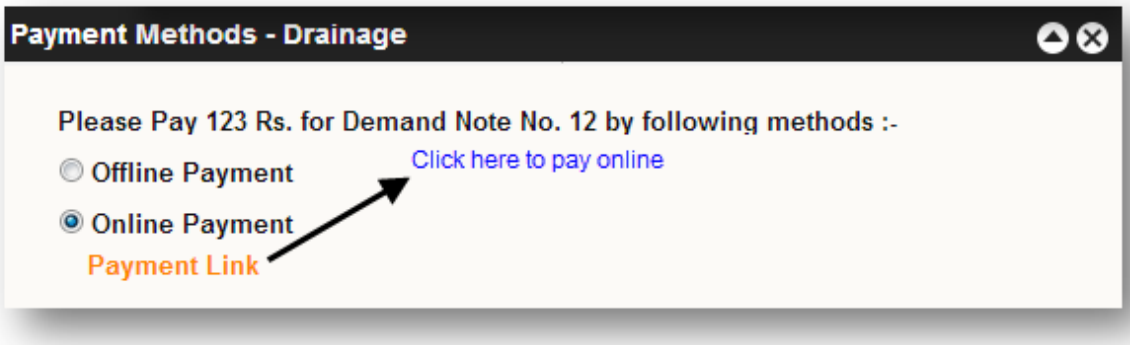

B. Once Payment is done at your nearest CFC/Payment centres, upload the receipt/challan on the portal. Post upload of the challan/receipt & submission, status will change to "Payment completed".

Screen: Payment Process Offline

IV. For Online Payment:

A. Click on Online Payment category & it will redirect you to the Bill desk for payment. Once payment is completed, status under "Track Status" will get changed to "Payment completed".

Screen: Payment Process Online

Step 7: Check the status of your connection Request under "Track Status" utility on the portal.

I. After Receipt/Challan has been uploaded successfully, JE will verify and approve the Payment (Only for Offline Payment). Status shows "Completed" for Online and Offline payment completion.

II. After completion of connection work, JE will update the application status, status shows "Connection Completed".
